World Project Example Format

Projects	Areas of discussion
⊙Feed the World ⊙Heal the World ⊙Clean the World ⊙Power the World ⊙Respect the World ⊙Connect the World	The World's Opportunity Description → • People • Places • Engineering • Art / History • Consumers • Math. / Science • Language Arts • Suppliers • Design • Technology • Business Processes

How are we going to organize ourselves?

Setting the environment for the students:

- Imagination
- Have doubt and wonderment
- Testing / Failure
- Consultation / Collaboration
- Extensions, Refinements and Elaboration
- Synthesis
- Thinking skills development (creative, critical, questions and meta-cognitive reflection)

Which problem will we work on?	
What is the problem we are going to solve?	
Define the problem and write it down	
What facts do we know?	• What are the constraints? • Areas of discussion and inclusion
What do we need to know more of?	
Finding lots of options	Reflection

Nobel Skills

World Project Example Format

Narrowing the choices	- How are we going to test our approach? - What requirements do we have to achieve?
Sketch and Map the best fits	Test
Update the possible solution	Test and reflect
Report
